khadarmoha47@gmail.com

Tech Skills

- Programming: JavaScript (ES6+), c++, Java.
- Web: HTML, CSS, React, Node.js, Express, MongoDB.
- Tools: Git/GitHub, Docker, CI/CD, AWS.
- DB: MySQL,MongoDB.
- Practices: REST APIs, Agile.
- Mobile: Flutter (basic)

Soft Skills

- Problem-solving & critical thinking.
- Teamwork & collaboration.
- Communication (technical & non-technical).
- Adaptability & fast learning.
- Time management & Accountibility

Tools

- **GitHub** → Source control
- **VSCode** → Code editor/ IDE
- **Postman** → API testing
- **Docker** → Containerization
- **Jira** → Agile project management & issue tracking.

My Profile

Enthusiastic Software Engineering student (graduating in 2025) with strong hands-on experience in MERN stack development and foundational skills in Flutter. Successfully completed a 5-month internship at AddisWay, where I contributed to building scalable e-commerce and doctor appointment systems. Passionate about designing and developing user-focused applications, with a keen interest in full-stack development, software architecture, and continuous learning. Eager to apply my skills and grow into a versatile software engineer who delivers impactful solutions.

Work History

July 2024 – Nov 2024	**Internship Addisway Technology Solutions, Addis Ababa, Ethiopia**
	✓ Built responsive user interfaces using React, HTMl TailwindCSS/Bootstrap, and CSS.
	✓ Implemented form handling and validation with React Hook Form and worked with state management tools such as React Context API and Redux.
	✓ Created reusable components including buttons, modals, tables, and dashboards.
	✓ Developed Restful APIs for CRUD operations using Node.js and Express and implementing authentication and authorization with JWT, bcrypt.
	✓ Worked with middlewares for validation, logging, and error handling.
	✓ Handled file uploads using Multer and integrated cloud storage with Cloudinary and AWS S3.
	✓ Designed and managed MongoDB schemas and models with Mongoose.
	✓ Implemented one-to-many and many-to-many relationships for efficient data handling.
	✓ Connected React frontend with Node.js backend APIs to ensure seamless integration and managed authentication flow from login to token handling and protected routes.

Projects I build by My Self

1. Doctor Appointment Management System
   a) Description**:** A full-stack application for booking, managing, and tracking doctor appointments. Supports role-based access for patients, doctors, and administrators.
   b) Technologies**:** MERN Stack (MongoDB, Express.js, React, Node.js), JWT authentication, RESTful APIs,Render for deployment.
   c) Role**:** Sole Developer

2. Food Delivery Application
   a) Description: Designed and developed a professional portfolio website to showcase projects, skills, and contact information. Responsive design with interactive UI.
   b) Technologies**:** MERN Stack, Stripe Payment Integration,Render for deployment
   c) Role**:** Sole Developer

3. Personal Portfolio
   a) Description: Developed a platform for ordering and delivering food with real-time order tracking and user-friendly interfaces.
   b) Technologies**:** MERN Stack, Stripe Payment Integration,Render for deployment
   c) Role**:** Sole Developer

Education

18 Jul 2025	Bacholar of Science in Scftware Engineering. *Debre Berhan University, Ethiopia* — **Graduated July 2025**

Accomplishments

- Internship completion Certificate

REFFERENCE

1. Dr. Gatachew M.
   vice dean of collage of computing,Debre Berhan University.
   Phone: +251 911777120
   Email : getachewmekuria@dbu.edu.et

2. Mr. Bekele Mengesha.
   Lecturer & Head ,Department of Software engineering.
   College of computing , Debre Berhan University.
   Phone: +251 910616227
   Email : bekelemengesha@dbu.edu.et

3. Mr. MohammednurEbrahim &ShikurDerso.
   Founders & ceo of Addisway tech solution, Addis Ababa, Ethiopia.
   Phone: +251 917388888/+251 942880533/+251 911 559605
